MATH 073-01, Analytic Geometry and Calculus III: Spring 2019 A quick reference guide

Instructor: Johanna Franklin

E-mail: johanna.n.franklin@hofstra.edu

Office: Roosevelt 315A

Office hours: Tuesdays, 1:30–3:30 p.m. and Wednesdays, 2:00–4:00 p.m.

Office phone: (516) 463-5739

Website: Blackboard (course site), http://people.hofstra.edu/Johanna_N_Franklin/ (personal site)

Semi-official course description: Three-dimensional analytic geometry, elementary vector analysis, partial derivatives, multiple integrals, vector fields, parametric curves and surfaces, line integrals, Green's Theorem, introduction to surface integrals, and, time permitting, theorems of Stokes and Gauss.

Text: Multivariable Calculus (8^{th} edition) by James Stewart (with WebAssign)

Classroom and time: Roosevelt Hall 101, MW 9:05-10:00 a.m. and TR 9:35-11:00 a.m.

Grading scheme:

• Homework (WebAssign): 25%

• Homework (written): 10%

• 2 midterms (February 27 and April 3): 20% each

• Final exam: 25%

You will submit some of your homework electronically through WebAssign. These problems will be assigned for each class day and will be due at 8:00 a.m. a week later (in general, problems covering Monday's material will be due the next Monday, problems covering Tuesday's material will be due the next Tuesday, etc.). You will only be able to submit the assignment during the time that the problem set is open.

Written homework will be assigned every other week. In general, the problems will be due on Thursdays at the beginning of class and cover the material discussed in the previous two weeks. No late assignments will be accepted except under the most extreme circumstances. If you have an emergency that you think may qualify, please let me know as soon as possible. The lowest written homework score will be dropped regardless.

There will be two midterms and a comprehensive final exam in this class. The final exam is tentatively scheduled for 10:30 a.m. on Tuesday, May 14. You must be available to take your final exam at this time unless you have a documented emergency or unless you make alternate arrangements with me by April 22. Note that I will only make these arrangements in the event of extenuating circumstances beyond your control.

Calculator policy: You are permitted to use scientific calculators on exams, but not graphing calculators.

Academic Honesty: You are expected to follow the Hofstra University Honor Code at all times. All forms of academic dishonesty are serious ethical and professional infractions. Hofstra's policy on academic honesty reads: "The academic community assumes that work of any kind [...] is done, entirely and without unauthorized assistance, by and only for the individual(s) whose name(s) it bears." See the "Procedure for Handling Violations of Academic Honesty by Undergraduate Students at Hofstra University"

(https://www.hofstra.edu/faculty/senate/policy-series-011.html) for a detailed discussion of dishonesty and Hofstra's procedures for handling violations. Violations will be reported.

You're encouraged to talk about the problems with your classmates and ask me questions if you get stuck, though copying your classmates' solutions is not allowed. I expect you to list the names of the students you worked with on each of your homework assignments. You are allowed to use any kind of calculator you like when you do the homework, but I urge you not to rely on a graphing calculator heavily since only scientific calculators will be permitted on exams.

Accessibility Issues: If you believe you need accommodations for a disability, please contact Student Access Services (SAS). In accordance with Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, qualified individuals with disabilities will not be discriminated against in any programs or services available at Hofstra University. Individuals with disabilities are entitled to accommodations designed to facilitate full access to all programs and services. SAS is responsible for coordinating disability-related accommodations and will provide students with documented disabilities accommodation letters as appropriate. Since accommodations may require early planning and are not retroactive, please contact SAS as soon as possible. All students are responsible for providing accommodation letters to each instructor and for discussing with him or her the specific accommodations needed and how they can be best implemented in each course.

For more information on services provided by the university and for submission of documentation, please contact Student Access Services, 107 Student Center, (516) 463-7075.

Religious observances: If you have a religious obligation that conflicts with your participation in the course, you are responsible for notifying me far enough in advance for us to discuss your situation and agree on accommodations. Note that all students are responsible for completing all the work for the course. For more information, see Part II(B) of "Academic Freedom and Civil Liberties of Students at Hofstra University"

(https://www.hofstra.edu/faculty/senate/policy-series-012.html).

Discriminatory harassment, relationship violence, and sexual misconduct:

Hofstra prohibits sexual and other discriminatory harassment, stalking, domestic and dating violence, sexual assault and other sexual misconduct. If you or someone you know believes they have been subjected to any of these offenses, help is available. To make a report, or for more information about Hofstra's Student Policy Prohibiting Discriminatory Harassment, Relationship Violence, and Sexual Misconduct (for more information, see http://hofstra.edu/sexualmisconduct), please contact the Title IX Officer for Student Issues at (516) 463-5841 or StudentTitleIX@hofstra.edu or Public Safety at (516) 463-6606.

Confidential resources and support are also available from medical and counseling professionals in the Student Health and Counseling Center at (516) 463-6745) and clergy in the Interfaith Center.
